

Empathy Map

Date: September 2026

Team ID: 6abc95cbdfc814753aa5fe42

Project Name: EduGenie – Google Gemini Powered Learning Assistant

Maximum Marks: 4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS

- “I want to understand difficult concepts in a simple way.”
- “I need quick answers when I am studying.”
- “I want quizzes and summaries to help me prepare for exams.”
- “I need a learning assistant that is simple and easy to use.”

THINKS

- Generic learning materials do not always match my level or learning needs.
- Without proper guidance, I may get confused while studying.
- An AI assistant could save time and explain topics clearly.
- Personalized learning paths and practice can help me improve.

DOES

- Searches online for explanations and study materials.
- Uses different websites or videos when a topic is difficult.
- Practices questions and quizzes before exams.
- Tries to summarize notes and create a study plan when time is limited.

FEELS

- Confused when concepts are difficult or explanations are too complex.
- Overwhelmed when there are too many learning resources.
- Frustrated when answers are not clear or easy to understand.
- Confident and motivated when learning becomes simple, personalized, and interactive.

USER PERSONA

Beginner / Busy Learner – Student
