

Customer Journey Map

Date: 30 September 2026

Team ID: 6abc95cbdfc814753aa5fe42

Project Name: EduGenie: Google Gemini Powered Learning Assistant

Team Members: Elango, Vahini, Kalaiselvi, Siva Sakthi, Yuvarani

Map out the student's experience stage-by-stage, capturing actions, touchpoints, thoughts, feelings, process ownership and improvement opportunities.

Phase of Journey	Stage 1 Discover & Ask	Stage 2 Learn & Practice	Stage 3 Track & Improve
Actions What does the customer do?	• Opens EduGenie and reads the home page. • Chooses Explain Concept or Ask a Question. • Enters a topic/question. • Clicks Generate.	• Reads the Gemini-powered explanation. • Uses Generate Quiz to practice. • Uses Summarize Text. • Requests a Learning Path.	• Reviews answers and quiz results. • Finds topics needing more practice. • Asks follow-up questions and continues learning.
Touchpoint What part of the service do they interact with?	• Home page • Feature selection • Prompt field • Generate button	• AI result area • Quiz feature • Summarize Text • Learning Path	• Generated learning content • Quiz practice/results • Learning path • AI assistant
Customer Thought What is the customer thinking?	• “Can this explain my topic simply?” • “Will I get an answer quickly?” • “Which feature should I use?”	• “Now I understand the concept better.” • “Can I test what I learned?” • “What should I learn next?”	• “I need more practice on this topic.” • “Can I ask another question?” • “Is my learning improving?”
Customer Feeling What is the customer feeling?	Curious and hopeful. Comfortable exploring the AI learning features.	Engaged and confident. Relieved that difficult concepts can be explained and practiced.	Motivated and supported. More confident to revise weak areas and continue learning.
Process Ownership Who is in the lead on this?	EduGenie Team: Home page, navigation, prompt interface and request handling.	EduGenie Team: Gemini integration, explanation, quiz, summarization and learning-path modules.	EduGenie Team: AI response flow, learning-path support, practice experience and feedback improvements.
Opportunities How can we improve this stage?	• Add feature examples. • Improve input validation and error messages. • Add voice input.	• Add quiz difficulty levels. • More personalized explanations. • Multilingual support. • Improve loading/error handling.	• Add progress tracking and saved history. • Revision reminders. • Learning analytics and recommendations.
