

Project Demo Planning

Date: September 2026

Team ID: 6abc95cbdfc814753aa5fe42

Project Name: EduGenie: Google Gemini Powered Learning Assistant

Maximum Marks: 1 Mark

Project Demo Planning

A well-structured demo plan ensures that the team presents EduGenie effectively, covering the key learning-assistant features in a clear and organized manner. The demo focuses on the problem, solution, technology stack, Gemini-powered interaction, learning features, and future scope.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce EduGenie and the team. Explain the problem: students often need quick, personalized learning assistance, study support, summaries, etc.	1	Team Member 1
2	Solution Overview & Technology Stack	Clearly state EduGenie's concept and workflow. Show how the user interacts with the learning assistant.	2	Team Member 2
3	Live Demo: Home / User Interface	Open the EduGenie application and introduce the main interface. Demonstrate how a student can interact with the learning question or request.	2	Team Member 1
4	Live Demo: Gemini-Powered Learning Features	Demonstrate the core AI features such as answering questions, explaining concepts in a simple way, generating study-oriented responses.	3	Team Member 4
5	Live Demo: Learning Support & Q&A	Show how the generated response can support learning—for example, by requesting a simple explanation, 5 examples, key points, or additional resources.	2	Team Member 5
6	Conclusion, Future Scope and Q&A	Summarize what was delivered. Present future scope such as quiz generation, personalized study plans, progress tracking, multilingual support, etc.	3	Team Member 1 (Q&A: all members)

Total planned time: 12 minutes.

Demo Flow Summary

Step	Activity	Notes
1	Introduction & Problem Statement	State the learning problem and target users. Keep it to about one minute.
2	Solution Overview	Show how EduGenie connects the user interface with Gemini-powered learning assistance and explain the technology stack.
3	Live Feature Demonstration	Follow the order: open application, introduce the interface, enter a learning question, demonstrate Gemini-powered response.
4	Q&A Session	Answer questions together. Be ready to explain the Gemini API integration, the application's learning workflow, and future plans.
